TECHNOLOGICAL ADVANCEMENT

Impact of Technological Advancements on Personal Interactions

- 01 Online platforms of communication have reduced face-to-face communication.
- 02 Face-to-face communication is associated with mental benefits. Confronting us and providing us with a key sense of well-being.
- 03 These benefits have been lost as people have neglected real-world relationships.
- 04 People are no longer making personal interactions and having stimulating conversations.
- 05 The technology has negatively impacted interactions among people in various ways.
- 06 Mobile technology and the internet have almost destroyed the significance of people's interactions.
- 07 It has disconnected us from our surrounding world.
- 08 Leading to a society with an immense feeling of isolation.
- 09 We prefer instant messages, call or text rather than visiting our friends & relatives.
- 10 This is a sample text that you can edit. You can change font size, color, format, or apply any desired formatting.
